Dear Howard,

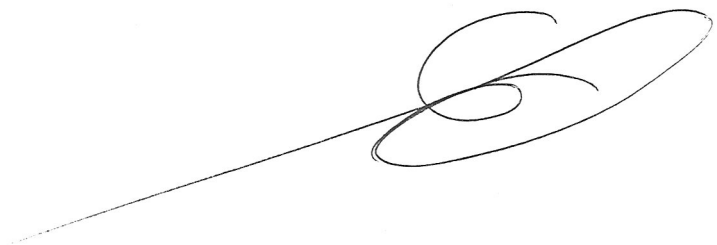
This is the "new" material Huie put in the paperback "He Slew---". Retitled "Did The F.B.I. Kill M.L.K. JR."? Thomas Nelson. 1977.

"The Ray case is one of "Just because a man looks quietly, it does not mean that he is innocent!" Ray, while not shooting King, may well be quietly on Conspiracy. Nearly all objective interviewers come away thinking, "A liar" who can't be believed. This makes many (myself included) feel that he is protecting other quietly parties. A rich,

Eric, stupid man ---- .

Which is not to say there was no Cover-up!

I don't know why Snepp wanted out the Ruby slime story. But Snepp is very anti-The "liberal" CIA like Epstein. The CIA has much unreleased data on L.H.O.

It is possible that L.H.O. was a double agent for The Company. This would insure a Cover-up.


Take care.
